# GROWTH FIGURES EMPLOYEES

HORNETSECURITY

# NEXT-GEN SECURITY AWARENESS SERVICE

STRENGTHEN YOUR HUMAN FIREWALL.  
FOR A SUSTAINABLE SECURITY CULTURE.

HORNETSECURITY

# THE LACK OF A SECURITY CULTURE LEADS TO IMMENSE DAMAGE

*"I'm not going to be attacked anyway."*  
Maria (28) — HR Manager

*"Our IT is already taking care of that."*

Roland (41) — Controller

*"I have more important things to do than worry about IT security."*

Gabi (54) — Head of Sales

Working from home will continue to become more prevalent

95% of all cyber security incidents are caused by human error.

Source: World Economic Forum - The Global Risks Report 2022

IT security:  
Humans are risk factor No. 1

HORNETSECURITY

# WHY IS SECURITY AWARENESS SO IMPORTANT?

THAT IS WHY PURELY TECHNICAL MEASURES ALONE ARE NOT ENOUGH. Some examples:

- Employees access business applications via their own inadequately secured devices and premises, e.g. in the home office

- They use business devices to surf the web or check e-mail privately

- They receive phishing calls and are contacted on social networks by fake profiles

- They overestimate their own capabilities to protect themselves from cyber attacks

- They don't know what to do when they observe a security incident

HORNETSECURITY

# PSYCHOLOGICAL BACKGROUND: SECURITY AWARENESS

Kahneman: Subdivision of human thinking into

- System 1 ("fast thinking"): experience-based, automated information processing, intuitive, and automated actions
- System 2 ("slow thinking"): deliberative, rational, analytical behavior for evaluating major decisions

HORNETSECURITY

# REQUIREMENTS FOR A SUSTAINABLE SECURITY CULTURE

HORNETSECURITY

## MINDSET

Motivation and open communication

- Understanding of threat situation
- Emphasize personal responsibility

Communication aids for all stakeholders

## SKILLSET

Acquire skills and knowledge

- Phishing-Simulation
- E-Learning
- Short Videos

Awareness Materials

## TOOLSET

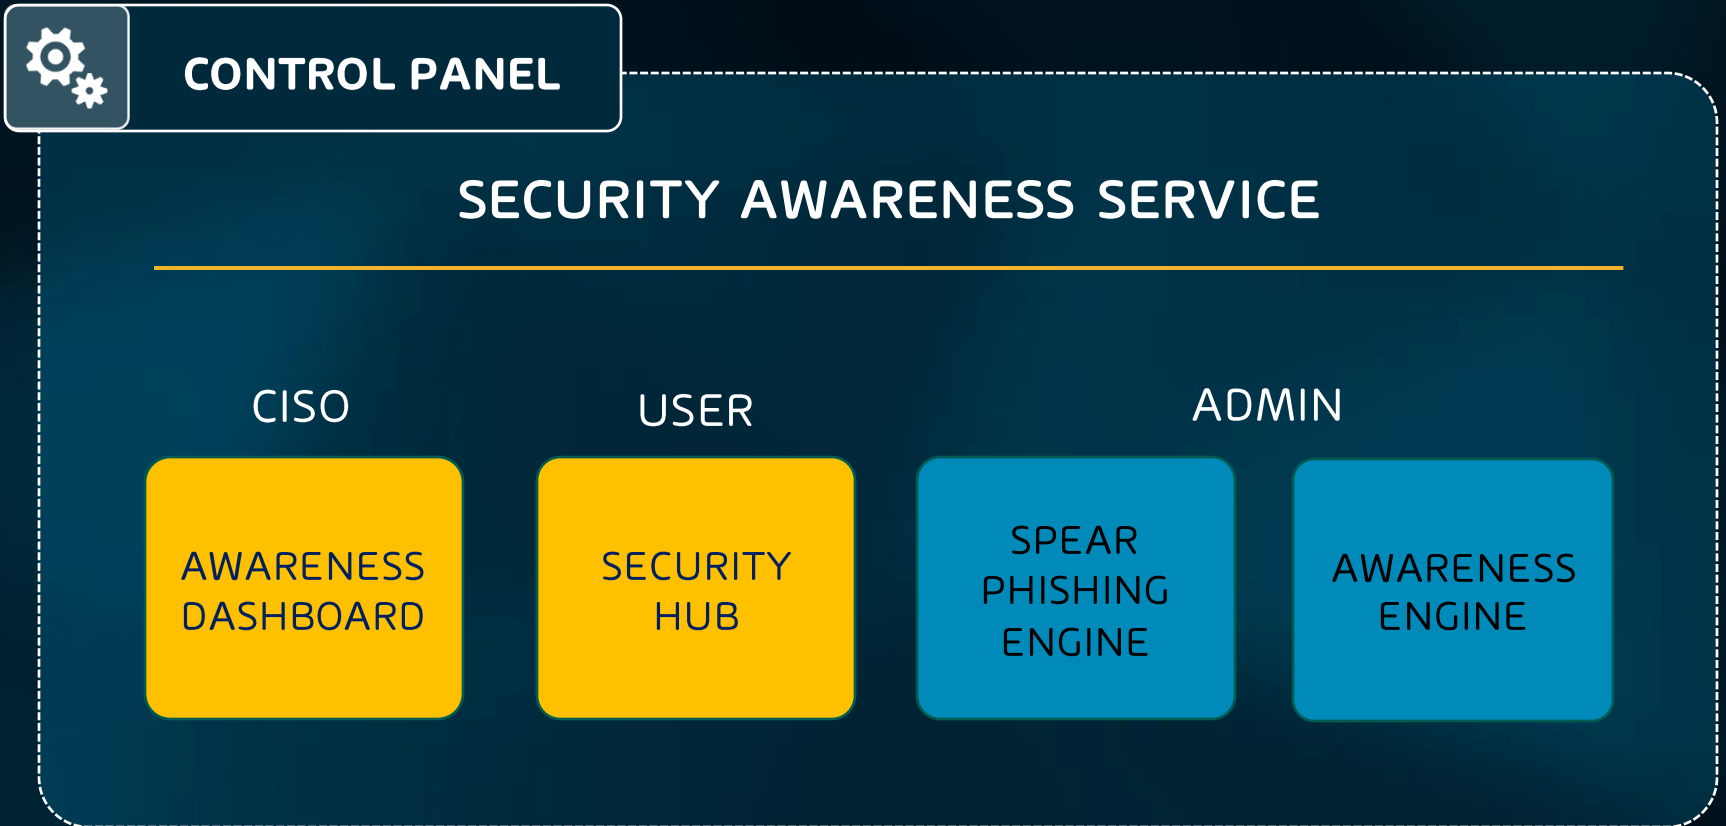

Actively get involved in taking action

- Live-Dashboard
- Incident reporting chains

Reporter-Button  
Outlook Add-In

# PRODUCT OVERVIEW

HORNETSECURITY

# PATENTED SPEAR-PHISHING ENGINE

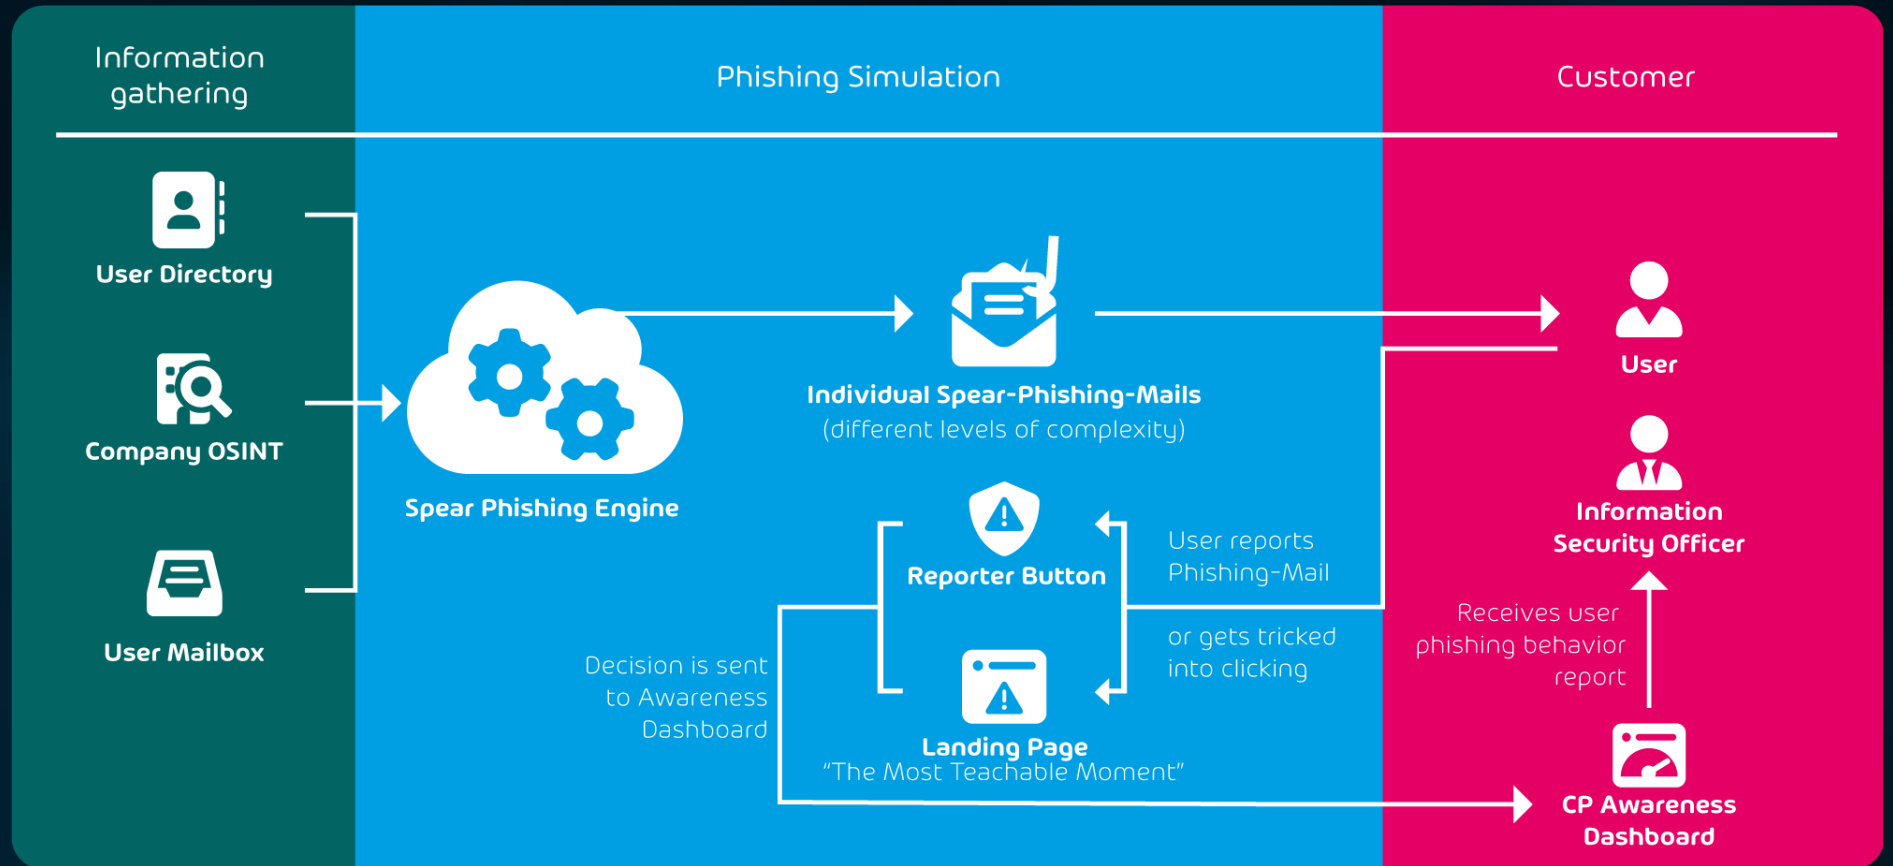

Level	Prep Time	Example
1	ca. 15 minutes	Typical mass phishing e-mail such as the order confirmation of a well-known shopping portal
2	ca. 1 hour	Alleged email from the CxO (CEO Fraud)
3	ca. 2 hours	Spear phishing e-mail including public information about the company, e.g. from job rating portals
4	ca. 4 hours	Spear phishing email with reference to the recipient's department and job position, email from direct colleagues or managers
5	ca. 6 hours	Spoofed email from a business partner who has not enabled email spoofing protection or has had an account hacked
6	ca. 12 hours	A business partner or colleague has been hacked: email of a personal contact responding to a previous email conversation
7	More than 20 hours	Spear phishing email related to topics the recipient is working on, such as a status update on an ongoing project the recipient is involved in

# SECURITY AWARENESS SERVICE KEY FEATURES AT A GLANCE

## Awareness Engine – Key Features

- ✓ Auto Training Mode: Learning content is automatically rolled out to users and groups on demand.
- ✓ Single User & Productivity Booster: Users with additional learning needs are trained more intensively; users at a very good security level, on the other hand, are trained less.
- ✓ Automatic onboarding of new users (requires LDAP/AD Sync.)
- ✓ Manual Training Mode: There is an option to manually roll out training modules to the groups and users.

HORNETSECURITY

# SECURITY AWARENESS SERVICE
